

Sion Drinking
Fountain with a Solar
Cooling System

2063

- cold water 24/7
- Powered by a solar panel
- Low voltage
- Accessible for people with disabilities

The drinking fountain is made in compliance with Israeli Standard 1918 (Accessibility) and is aligned with Safe Drinking Water Mark and the Standards Institute Mark.

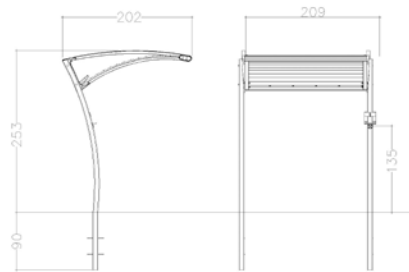

The solar Sion drinking fountain consists of three main parts: a fountain, a pole-mount solar panel and an energy storage battery. This drinking fountain is used for cooling water and filling bottles and is accessible for people with disabilities. It has two taps with buttons – one for drinking and the other for filling bottles. The fountain is made of concrete and stainless steel. It is optional to add a watering bowl for dogs.

Gal Yam Solar Pergola

8010

- Metal and pine wood pergola
- Solar panel
- 2 USB ports
- Metal rack for a mobile phone

NEW

The Gal Yam solar pergola is made of galvanized metal and pine. There is a solar panel with a cover on top of the pergola, and 2 USB ports and a metal rack are connected to the leg of the pergola. All the metal parts are coated with electrostatic paint.

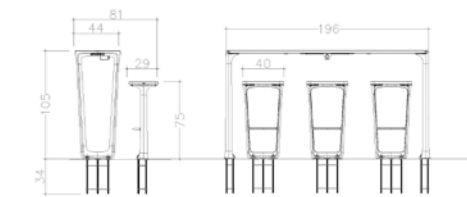

Installation: the pergola posts are attached to the ground with concrete.

Bar Solar Table

1701

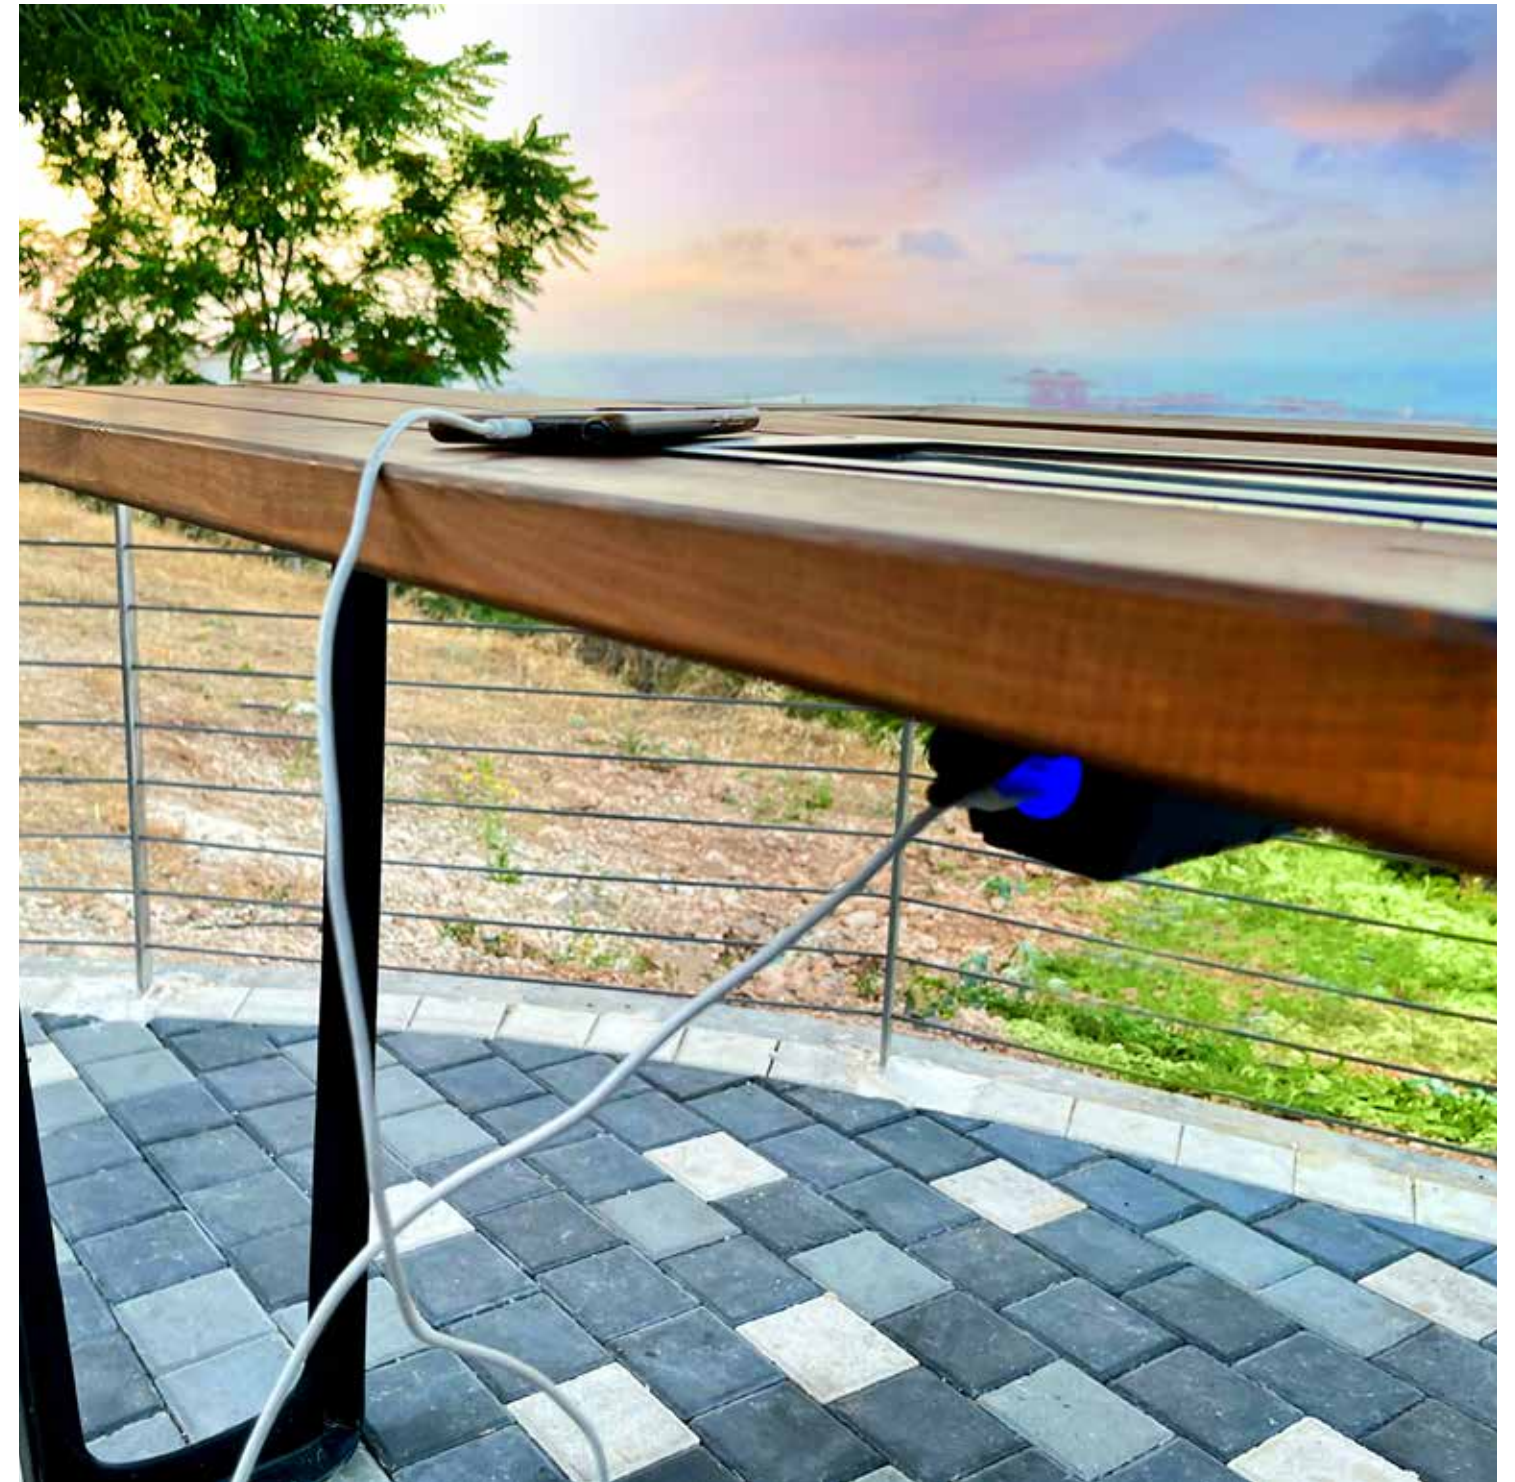

- Cast iron and pine wood
- Solar panel
- 2 USB ports

NEW

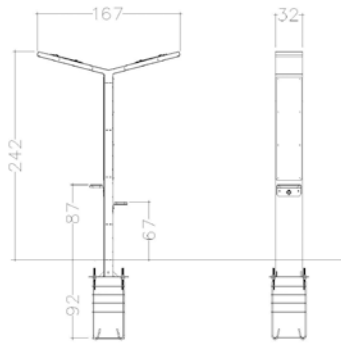

The Bar solar table is made of quality cast iron and pine boards. It includes a solar panel with a cover and a galvanized metal unit coated with electrostatic paint, with 2 USB ports at the bottom of the table.
Installation: the system is anchored to the ground with anchors.

Solar Charging Station

8022

- Solar panel
- 4 USB ports
- Pine wood racks
- Graphic displays

NEW

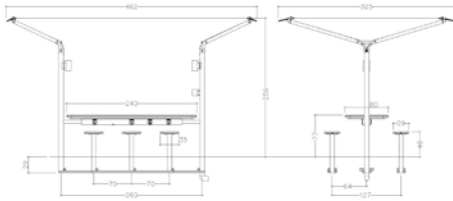

This pole-mount solar charging station is made of galvanized metal coated with electrostatic paint and includes solar panels with a cover, pine racks, 4 USB ports (two on each side) and aluminum graphic displays. The metal can be painted in a color of your choice (out of the RAL color chart). Installation: the station requires setup and ground anchoring.

OUTWORK Table

2063

- Optimal shading
- Concrete table
- 6 seats
- Waterproof power outlets
- Optional WIFI connection
- Open workspace

The table includes an optional app for managing the power interface- which allows control over the power active hours, and an option for turning each power switch on/ off according to the user's actions.

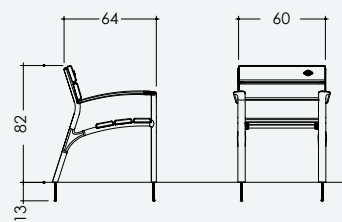

Smart power availability control system

OUTWORK is an urban table that offers a WIFI connection, waterproof power outlets, 4 USB ports a concrete work table and a galvanized metal structure coated with electrostatic paint, 6 seats and a fabric shade. An optional unique app enables control of the power availability.
